

Medium security - fail locked

14E

Electric strike

ASSA ABLOY

Application:

For use in access control where reliability is a major consideration but where the very high physical strength of SOLID High Security Strikes is not required. For example: computer rooms, plant rooms, laboratories or other specially designated areas of restricted access.

Supplied fitted with either faceplate 505, 510, 5 or 10. Faceplate and pivoting staple are manufactured from high grade steel.

Tested to 1,000,000 operations.

MEDIUM strength - resists 450kg sidepressure on the pivoting staple.

Can be used with both left and right hand doors without adjustment.

Specification:

DC continuous duty fail-locked

The strike opens when the current is on and locks automatically when the current is switched off.

Variants:
