

POLIFAN flap disc PFC 115x22.23 mm conical A-COOL 40 SG INOX+ALU stainless steel/aluminium

**POLIFAN flap disc PFC 115x22.23 mm conical A-COOL 40
SG INOX+ALU stainless steel/aluminium**

Item number: [67754115](#)

EAN: [4007220232880](#)

The broad range Performance Line SG offers a high-performance tool solution for every application and every material. Performance Line SG tools achieve optimum results with maximum economic efficiency.

POLIFAN flap disc with particularly cool grinding on materials that do not conduct heat well such as stainless steel (INOX) and aluminium.

Technical information

Abrasive	A-COOL
Dia. external	115 mm
Dia. hole	22.23 mm
Grit size	40
Max. RPM	13300 RPM
Mounting system	Centre hole
Shape	PFC / B / T29

Special features

- ✓ Less heat build-up in the workpiece compared with other flap discs.
- ✓ The active grinding abrasive coating prevents clogging, for example on soft aluminium.

Recommendations for use

- ✓ Use only grit sizes 40 and 60 for aluminium.

Materials that can be worked

- ✓ Aluminium
 - ✓ Other non-ferrous metals
 - ✓ Stainless steel (INOX)
-

Applications

- ✓ Chamfering
 - ✓ Deburring
 - ✓ Step-by-step fine grinding
 - ✓ Surface grinding
 - ✓ Work on weld seams
-

Drive types

- ✓ Angle grinder
 - ✓ Drive spindle
