

Intumescent Air Transfer Vents

When installing ventilation, air conditioning, ductwork or simply cutting holes for ventilation within a compartment wall the integrity of the building must be retained. Fire blocks offer a low maintenance, low cost answer to this application giving up to 60 minutes* integrity in accordance to BS 476 parts 20:22 together with giving excellent free air flow during normal use. They have no moving parts hence need no regular maintenance apart from inspection to ensure they have not been damaged.

Code	Description	Finish	OD Size (W x D)
GRI-100x100	Intumescent Grille	N/A	100mm x 100mm
GRI-150x150	Intumescent Grille	N/A	150mm x 150mm
GRI-200x200	Intumescent Grille	N/A	200mm x 200mm
GRI-225x75	Intumescent Grille	N/A	225mm x 75mm
GRI-225x150	Intumescent Grille	N/A	225mm x 150mm
GRI-225x225	Intumescent Grille	N/A	225mm x 225mm
GRI-250x250	Intumescent Grille	N/A	250mm x 250mm
GRI-300x150	Intumescent Grille	N/A	300mm x 150mm
GRI-300x225	Intumescent Grille	N/A	300mm x 225mm
GRI-300x300	Intumescent Grille	N/A	300mm x 300mm
GRI-400x150	Intumescent Grille	N/A	400mm x 150mm
GRI-400x400	Intumescent Grille	N/A	400mm x 400mm
