MACO Lever Operated Latch & Deadbolt MK3 Centre Case With Slide Button

Description

The MACO Lever Operated Latch & Deadbolt - Centre Case has 35mm backset, 92mm centres, is single spindle, latch & deadbolt centre case, 226mm case height and has 50mm case width.

Ideal for locksmiths and trade professionals, it offers a cost effective solution for repairing or refurbishing existing door systems without needing to replace the entire strip.

Handing
The latch can be reversed by pushing in the latch hold cam (located on the side of the lockcase). Remove the latch, reverse it, and return it to the case. You should hear a click as it engages.

Operation
Locking Method - A. Lift lever to engage locking mechanisms and then one full turn of the cylinder to lock. One full turn of the key, then push down on the lever to unlock.
